SAFETY REMINDER

If you smell natural gas and are worried about a leak please call USDI at 463-235-2307.

TRASH ORDINANCE UPDATE

In August, ordinance 2024-16 was passed by the Town Council. This ordinance will impact the collection of trash for all residents within the Town of Pittsboro town limits.

Effective Nov. 1, the new monthly fee will be \$17.00 for each Town utility user or each separate dwelling for multi-family dwellings.

All solid waste shall be put in receptacles and contained in bags, cardboard boxes or other containment devices. There should be no more loose trash within cans.

All trash set out for pickup must fit inside the tote, any items not inside the tote or totes will not be picked up.

The largest tote permissible for use is a 96-gallon trash tote that has wheels, and a support arm that can be lifted by the trash truck. Pictured on the newsletter is an example of the type of tote that is accepted.

The maximum number of totes is two per customer.

A customer may continue to utilize their own tote or totes so long as it is approved by the Town to meet the necessary standards.

Each residential or commercial customer shall receive and utilize one 96-gallon trash tote provided by the Town of Pittsboro should their existing tote does not meet the

requirements or they wish to obtain a new tote. The roll out of new totes will start in November and continue throughout the next several months.

An additional tote may be purchased from the Town at the customer's expense to the cost of the Town. Please contact Town Hall to make arrangements.

If you have any questions about this new ordinance please contact Town Hall.
