Town of Pittsboro Update on Natural Gas Supply

Update from Town Manager, Jason Love

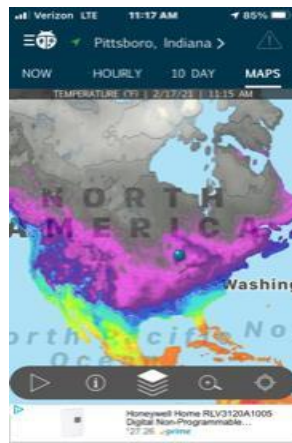

The Town Of Pittsboro had requested an effort by gas customers in the community to conserve the usage of natural gas until 2/18/2021 at 9:00am. I have received communication this morning and our efforts are paying off drastically. **We are asking to extend this attempt to Saturday 2/20/2021 at 9:00am.**

The temperatures in the South are trending the other direction. This is allowing Pipeline restrictions to be lifted and the price of natural gas to drop slowly. It is not normal by any means yet, but our continued efforts as a community are definitely part of the role. Pittsboro has not been forced to purchase any large quantities of gas at the elevated price at this point. Your continued efforts are greatly appreciated to keep the rate stable in Pittsboro.

Temperature Patterns

2/14/21

2/17/21

2/18/21

Thank You, Jason Love - Town Manager of Pittsboro
